October 31, 2018

Dear Welfare Fund Participant,

We are excited to announce that starting **November 1<sup>st</sup>**, The Friedman Health Center for the Performing Arts will become the “Medical Home” for Local One Welfare Fund participants. This new partnership between the Welfare Fund, The Actors Fund and Mount Sinai is designed to offer our participants a better healthcare experience, focused on treating you as a whole person, and actively working with you to keep you healthy instead of merely treating you when you’re sick. And the good news is that this new approach to healthcare **won’t cost you a penny out of pocket for a primary care visit**, and is **conveniently located in the theater district!**

A Medical Home is a team of health professionals who work together to provide a new, expanded type of care to patients. Having a medical home feels like having an old-style family doctor, but with a team of professionals (including Mary Kelly, Local One’s Healthcare Coordinator/RN), working together and working with YOU to provide the best possible personalized and coordinated care. And as an active member of the team, you will have a chance and the time to explain the things that are really important to you.

Welfare Fund participants with **Tier I, II or III coverage** will be able to receive primary care at the Friedman Health Center at **NO COST – no copay or deductible will apply**. Medicare participants are of course welcome at the Friedman Health Center, but since Medicare is their primary coverage, they will still be subject to Medicare cost sharing rules for office visits.

Dr. Jason Kindt is the Medical Director of The Friedman Health Center and was hired by The Actors Fund specifically because of his family practice background. He’s building a team practice which is focused on treating the whole person and recognizes that all aspects of our lives and health are interrelated.

For appointments at The Friedman Health Center, you can call **(212) 489-1939** or visit <http://mountsinai.org/Friedman> (there is a link that will allow you to make an appointment through Zocdoc). The Friedman Health Center is conveniently located at 729 Seventh Avenue, 12<sup>th</sup> Floor (between 48<sup>th</sup> and 49<sup>th</sup>). We’ve enclosed a fridge magnet so that you’ll always have this information handy when you need it.

If you have any questions about The Friedman Health Center, or any aspect of your healthcare, please call Mary Kelly at (212)247-5545.

Best Wishes for Good Health!

Scott Cool  
Director of Fund Administration
